INFLIGHT SOFTWARE

CATALOG

2014-2015

A GEE COMPANY

For twenty years, we have been at the heart of the inflight entertainment market supporting airlines with their vision for the inflight passenger experience.

We were the first to market innovative and engaging games, infotainment applications and software solutions, helping hundreds of airlines to maximize their inflight entertainment offerings over the years. Our cutting edge designs and exclusive relationships with the world's biggest entertainment brands provide us with a unique competitive edge and a deep understanding of an airline's inflight software needs.

We are the exclusive inflight entertainment provider of over a dozen of the world's most popular casual and consumer video games of all time, and we are working to add even more of the biggest games from the social and mobile worlds to our product portfolio in the coming months.

As we continue to provide compelling inflight software to airlines, we look to the future of the passenger experience, developing innovative solutions that capitalize on the growing inflight wireless streaming and bring-your-own-device trends.

We hope you enjoy our catalog and we look forward to supporting your inflight entertainment software needs.

Doing Business
Singapore is a small, heavily urbanised, island city-state in Southeast Asia, located at the southern tip of the Malayan Peninsula between Malaysia and Indonesia. Singapore has a total land area of 714.3 km². The Singapore area comprises mainland and other islands. The mainland of Singapore measures 49 kilometres from East to West and 25 kilometres from North to South with 19 km of coastline. These figures are based on 2.515m High Water Mark cadastral survey boundaries.
Singapore is separated from Indonesia by the Singapore Strait and from Malaysia by the Straits of Johor.

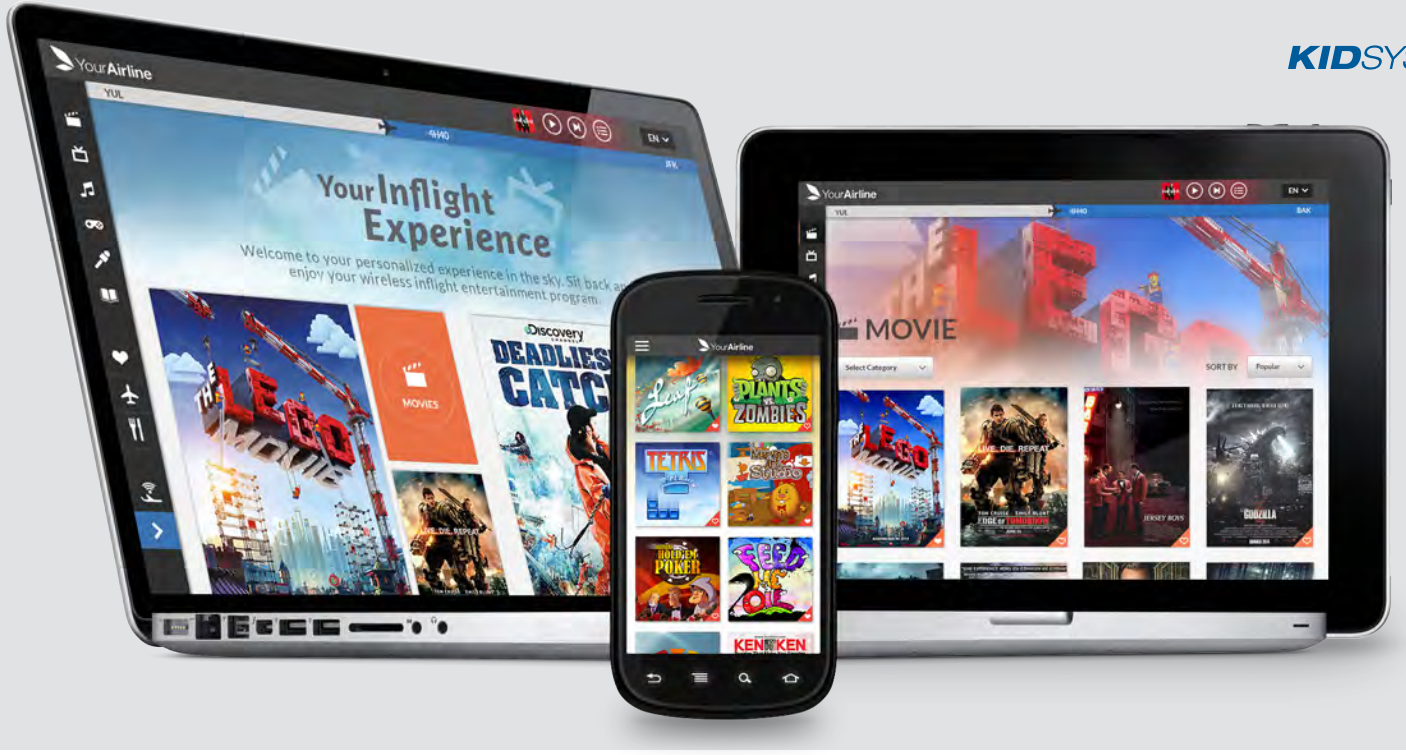
SOFTWARE SOLUTIONS

WISE™

WIRELESS INFLIGHT
SERVICES & ENTERTAINMENT

WISE™ is a complete wireless inflight entertainment solution for airlines that allows passengers to stream a variety of content securely on their mobile devices during their flight.



CHOOSE YOUR WIRELESS ENTERTAINMENT SOLUTION FROM OUR WISE™ PARTNERS:

BAE SYSTEMS · Honeywell · KIDSYSTEME · onair · Rockwell Collins

FEATURES

- Designed to work with or without inflight connectivity
- Supports all major operating systems and browsers
- Digital Rights Management (DRM) solution approved by major Hollywood studios
- Optional revenue-generating payment solution

eREADER

THE MARKET-LEADING
INFLIGHT eREADER

eReader is the IFE market's leading digital reading solution available for in-seat and wireless IFE. It is currently flying on over 150 aircraft around the world and offers an extensive content selection.

CONTENT DRIVEN

Choose from a wide variety of regional and international digital publications.

Over 5,000 titles

Publications from:
Asia, Europe, Middle East, North and South America

Over 50 languages

- Supports all major digital content formats (PDF, XML and ePub), browsers and operating systems
- Handles complete gesture support
- Web-based application (wireless eReader only)

eMEALMENU

CATER TO YOUR PASSENGERS' NEEDS

eMealMenu offers a complete inflight menu selection through the seatback entertainment system. This complete software solution enables airlines to showcase their culinary offering to provide an informative and enhanced inflight experience to passengers.

eSHOPPING

OFFER AN ENGAGING SHOPPING EXPERIENCE IN THE SKY

eShopping is a complete inflight shopping software solution. Convenient and ancillary revenue-driven, eShopping allows airlines to present their inflight shopping carts to passengers through the seatback inflight entertainment system.
